

Sears Canada

Sears Canada call centre for catalogue orders in Regina, Sk closed on Sept. 17/09. That left 250 people out of jobs. The call centre in Belleville, On. was also closed leaving 230 people without jobs. Now when you call your order in you will be speaking to people in the Philippines.

That's right folks Sears has moved its call centre to the Philippines because it is cheaper.

I don't know about you people but with the way the economy is I know I will no longer be shopping at Sears. If they can't keep the jobs in Canada then they can move all their stores to the Philippines.

Please pass this on. We need to make a stand. Our economy is not going to get any better unless these big companies start sourcing in the country that they do business.
